

## **The Green Fleet Company Fact Sheet**

**Company:** The Green Fleet, A Division of Southern Counties Express, Inc.

**Founded:** The Green Fleet – 2007; Southern Counties Express-- 1954

**History:** The Green Fleet division of Southern Counties Express has been in the making for over two years. It is a program designed to implement alternative fuel, heavy duty trucks into our fleet. The Green Fleet will be operated under the management structure of Southern Counties Express, Inc.

**Size of operation:** The Green Fleet will begin operation with 71 LNG trucks owned by Southern Counties Express and leased to owner-operator independent contractors for the duration of the program. The 71 LNG trucks will compliment SCE's existing fleet of approximately 150 trucks.

**Services:** The Green Fleet LNG trucks will operate in the Los Angeles and Long Beach Port harbor drayage environment, picking up and delivering ocean shipping containers to and from Southern California distribution facilities.

*LNG Fueling Station:* Expected to open December 2007, this fueling station, operated by Clean Energy, will be open to the public as well as service The Green Fleet LNG trucks.

*LNG Service Station:* This onsite maintenance facility, operated by Westport Innovations, Inc., is now open and will serve the public along with The Green Fleet LNG trucks.
